

Australian Government

Education Programs and Services in Australian Arts Organisations

The following document has been produced as part of the Australia Council's Education and the Arts Strategy (2004 – 2007). The strategy, developed in collaboration with the National Education and Arts Network (NEAN), aims to promote the Australia Council's long-term vision - where the arts are an integral part of the life-long learning of every Australian.

The Australia Council aims to identify current programs and services to encourage partnerships between the arts and education sectors and the development of principles of effective practice. Organisations listed offer activities for school-aged children and young people (4 – 18 years) both within and outside of school hours.

For a copy of the Education and the Arts Strategy or other education related projects, please refer to the Australia Council website.
